HAVE A LOOK

AT OUR SILVER LEVER WATCH at Rs. 35 before buying, and you will give it the preference before any other.

The Watch as it is is the result of 20 years experience in the Indian watch trade, and we believe it to be the most perfect watch ever offered to the public for such a small outlay.

Being the manufacturers ourselves, the buyer has the watch from first hand. This explains the cheapness.

The watches are of medium size in heavy engine turned silver cases, either hunting or half hunting. Guarantee 3 years.

To be obtained only direct from our firms at Bombay, Calcutta, and Secunderabad.

THE SCIENTIFIC SYSTEM OF DRESS CUTTING

ENABLES

EVERY LADY TO BE HER OWN DRESSMAKER

BY this system you can cut any garment worn by Lady or child without the use of any paper patterns and with a saving of from 1¼ to 3 yards of material. With the scientific system no trouble is incurred, if the instructions are followed (which any person can master without the least trouble) it is impossible to make a misfit. The system has been tested in all kinds of forms, and it will never fail to make a perfect fit.

Mrs. VOJKI, sole agent for the Scientific System, guarantees to instruct any lady, in a few easy lessons how to cut from measure, any garment worn by lady or child, so that it will fit perfectly without alteration. Each lady will receive personal instructions till perfect for the sum of Rs. 30, including a complete set of instruments.

Apply by letter to "V." care of this paper.

The S. S. have been awarded the only medal for dress-cutting of the International Health Exhibition.

THE ONLY "CAMPAIGN" WATCH OF THE DAY.
Rs. 35.

THE CASE is strongly made in best German Silver, so finished that it could hardly be distinguished from Real Silver, and retains its original Brightness for a considerable time, is air tight dust and Waterproof.

OUR "CAMPAIGN" WATCH. AS A TIME KEEPER it is equal to the best watch produced. Read what the Extra Assistant Commissioner, Yavoy, B. B. says.—I have the honour to acknowledge receipt of the Crystal faced keyless lever watch you sent me, and to inform you that is a very strong and a neat one, and in my opinion far superior to those sold for double the money by other firms in India, as it will stand a great deal of rough usage. The other day I compared it with one of Mr. J. W. Benson's Chronometer Watch, and found it neither lose nor gain a single minute after a week's trial. I would therefore be glad to recommend it in every way. It is a faithful time-keeper at so reasonable a price.—YAVOY, 28th May, 1885.

GUARANTEE 2 YEARS. OUR "CAMPAIGN" WATCH.—For Use.—It is suitable for everyday, Shikar, Gymkhana, Campaign, and the Roughest use. The motion of the body does not affect the movement of the watch in the least.

OUR "CAMPAIGN WATCH."—IMITATIONS.—Various watches are now offered to the public under this name. We guarantee none Genuine unless bearing our name on inner plate.

GOVERNMENT PAPER is very steady, and for Fours we quote Rs. 98¼ ready, Rs. 98 5-16 forward. Fours-and-a-half are offering for sale at par.

SHARES.—The market has been all strong to-day, and quite an excitement has prevailed in Spinning and Weaving Mill shares. The improvement is partly due to the better state of the Yarn market, and partly to the seasonable rain which has fallen. Prices are Rs. 20 to Rs. 30 higher, with more buyers than sellers at that. Bank of Bombays are firmer at Rs. 727½.

CHINA AND COREA.

(FROM OUR OWN CORRESPONDENT.)

COLOMBO, AUG. 13.

The China mail intimates the final departure of the Feneolan on the Pescadores on the 20th.

The Chinese still maintain the treaty ports blocked.

It is rumoured that Sir Robert Hart will be succeeded as Chief of the Customs by an American doctor without administrative talent.

The cost of the French war to the Chinese is said to be 150 million taels and a hundred thousand men.

The Pekin Court will not take up the railway projects until the treaty is ratified at Paris.

The King of Corea disavows and repudiates the Russian treaty, his signature having been obtained by deception as to the nature of the treaty.

A Chinese general has been despatched to the Amoor territory to watch the Russian movements. A fleet has also gone to the north.

Corea desires to cultivate friendly relations with England and Japan.

THE CALCUTTA MURDERER.

A telegram came late last night to the Secretary to the Viceroy from the wife of Tin Cowry Pal, the Calcutta murderer, praying for a commutation of his sentence. It is not thought that the Viceroy will interfere.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, AUG. 13.

Tin Cowry Pal suffered the extreme penalty of the law this morning in the Presidency Jail. He acknowledged his guilt, expressed contrition, and admitted the justice of his sentence. After addressing a short speech to the native gathering inside the jail he ascended the scaffold with firm steps; and in a few seconds all was over, death being instantaneous. A large crowd had assembled outside the jail, including some females.

THE Surat, which left Bombay with the homeward English mails on the 21st July, arrived at Marseilles on Wednesday.

A CORRESPONDENT informs us that His Highness the Nawab of Janjira has opened a high school at Murud in his territory. Considering that His Highness is a Mussulman, and that his subjects are in need of such an institution [illegible]

CAPTAIN L. L. FENTON, acts as Superintendent of Survey under the Rajasthanik Court and *ex officio* Assistant to the Political Agent, Kattywar, during Lieutenant-Colonel Hancock's absence. Captain Fordyce becomes substantive *pro tem.* third assistant to the Political Agent, and Mr. H. F. Aston, C.S., substantive *pro tem.* fourth assistant as a temporary arrangement, in addition to his duties as judicial assistant.

MR. R. M. SAYANI, Superintendent of the Bombay Common Jail, Civil Side, takes twenty five days' leave of absence from the 15th inst. Mr E. Van der Straaten will act in this capacity during Mr. Sayani's absence.

RAO SAHEB CHINTAMON NARAYEN BHAT is temporarily appointed a first-class subordinate judge to hear civil appeals at Satara.

THE Spaniards have determined upon a new colonising venture in the East, a civil and military governor having been appointed for the Caroline Islands with a view to their colonisation.

THE deaths in Bombay from cholera during the past week had decreased to eight. The summary of the season reports states that there has been slight rain in most districts; but more is wanted in parts of Sholapore, Ahmednuggur, Poona, Bijapore, Nasik, Khandesh, and Dharwar. Young crops are withering in parts of Sholapore, Khandesh, Bijapore, and Thana, and are injured by insects in parts of Hyderabad, Upper Sind Frontier, and Bijapore. Fodder is scarce in parts of Khandesh, Sholapore, Nasik, Ahmednuggur, Poona, Bijapore, and Belgaum. Cholera prevails in parts of eighteen, fever and cattle-disease in parts of nine, and small-pox in parts of four districts.

A SAD fatality is reported from the Alps, near Saltzburg. A schoolboy, aged about fourteen, who was enjoying his vacation in that district, went up the mountains to gather edelweiss. While searching at a dangerous spot after one of those beautiful Alpine flowers, he missed his footing, and fell down a precipice into the depth below, where some time afterwards his mutilated and lifeless corpse was discovered. Every bone in his body was broken.

THE report just issued by the London committee of the "Home for Lost and Starving Dogs" contains for the first time particulars of the new mode of disposing of what may be called the canine residuum—being stray dogs who are neither claimed by owners nor otherwise disposable. The system is that devised for the institution last year by Dr. B. W. Richardson, consisting of a "lethal chamber" with all needful apparatus and appliances for destroying these animals, not by suffocation or asphyxia, but by anæsthesia, or "death by sleep." When it is known that during the twelve months nearly fifteen thousand lost dogs were brought to the home—principally by the police—and that the number of those restored to owners or provided with new homes was only 4,274, it will be seen that the lethal chamber forms a very important portion of the arrangements of the home.

MR. CHARLES DUVAL, whose "entertainment" in St. James' Hall ran for nearly 500 nights, is now on his way to India, *vid* South Africa, to give a series of entertainments in this country.

THE late Surgeon-General for Bombay pays a high compliment in his recent report to the work done by the nursing Sisters of the St. John's Mission at the European General Hospital. "Surgeon-Major Blanc," Dr. Beatty writes, "particularly called attention to the benefit the sick derived from the nursing they received from the Sisters of the St. John's Mission, and for whom accommodation has now been provided within the hospital premises. Under their intelligent administration nursing and attending to the welfare of the sick has, in the short time they have been attached to the institution, already reached a high degree of perfection, and this system I would be glad to see extended to the other hospitals at the Presidency."

THE following letter of Mr. Chamberlain's deals with a very common accusation. A Welsh correspondent having sent a copy of a speech by Sir Watkin Wynn, M. P., to Mr. Chamberlain, containing the following:—"There is a Birmingham Liberal, one of the members there, who is a great man, a very great Liberal, whose liberality consisted a few years ago as a maker of screws and bolts in going round to the smaller people and offering them a small amount of money to close their works, and, if they did not, then 'I break you.' Two or three refused to do it: they broke"—the right hon. gentleman replies:—"If Sir Watkin Wynn intended to refer to me, I have only to say that his statement is absolutely false. I may add that I have just compelled another Tory speaker, who put the same statement in rather more definite language, to sign a full apology and to pay legal expenses.—Yours truly, J. CHAMBERLAIN."

HERE is another anecdote of the intelligence of the elephant:—A baker was passing along High-street, Annan, carrying on his head a wooden tray, containing loaves, while he had in his hand a bag containing a feed of oats. While passing near two elephants belonging to Bostock's menagerie, one of the animals put out its trunk in the usual begging style. The baker, mistaking the animal's wish, good-naturedly took a handful of oats from the bag, and poured it into the cup-like depression at the end of the trunk. With a grunt of dissatisfaction, the elephant brought his trunk down with a sounding whack on the astonished baker, and sent him and his loaves spinning along the street, but not by any means in close company. The elephant evidently considered himself insulted by being offered the raw grain, when the manufactured bread was so readily available.

THE British Government has, on the suggestion of Consul-General Fawcett, just taken a decision which reflects honour upon them and is, moreover, a graceful act that will meet with due appreciation not only in the small American colony at Constantinople, but will also find a sympathetic echo in the great Republic itself. The British cemetery at Scutari was created at the time of the Crimean war, and received the remains of the British soldiers killed in the war. At the conclusion of the war the cemetery was reserved exclusively for the use of the British colony, and has remained so up to the present time. The American colony were less fortunately situated in not possessing a burial place of their own, and it was reserved to Mr. Consul-General Fawcett to meet this want by suggesting to the British Government the extension of the privilege to Americans. This request has been met in such a gracious spirit by her Majesty's Government as to call forth the unqualified satisfaction of the whole American colony in Constantinople.

"ONCE a bride" writes to a home paper to suggest a new idea in making wedding presents:—It has often been a matter of surprise to me, when reading accounts of fashionable marriages, to note the entire absence of pictures from the long lists of wedding gifts. Possibly the example of the Institute of Water Colour Painters in presenting the Princess Beatrice with works of art may be largely followed in the future in regard to less illustrious brides. Surely, to any woman of taste and feeling, the possession of a beautiful picture would give greater and more lasting pleasure than that of a silver box, a clock, or a mere personal ornament. Moreover, some brides are blessed with twenty silver boxes, a dozen clocks, and duplicates of everything one can think of, except pictures. Can it be that people dare not trust their judgment in choosing a picture, and so fly to the less risky purchase of gold and silver ornaments, which can be more readily appraised both by donor and recipient? But no! I cannot think so poorly of the art judgment of this highly educated and intellectual age. 'Tis fashion that has set the ball rolling in the direction of the goldsmith's art; and fashion, fickle fashion, may now set it rolling in the direction of the painter's art.

SEVERAL curious incidents in connection with the English Postal Department are given in the annual report, the following among them:—"In the summer of 1884 a bird, described as a 'blue breast,' hatched a fine brood in a private letter box in a road near Lockerbie. It appears that the postman was in the habit of giving crumbs of bread to the bird, and that she always remained on her nest when he opened the box, but invariably flew away when any one else opened it. At Greenock a box arrived by parcel post. The box, in consequence of strange noises within, was opened by the postmaster, and found to contain a specimen of the common screech owl in an exhausted condition. The bird, having been carefully fed, recovered, and was forwarded to the owner by railway. At Glasgow two cheques for £20, one [illegible]

TELEGRAPHIC WEATHER REPORT.

SIMLA, Aug. 12.—The barometer has fallen slightly in the Punjab, Rajputana, parts of the Central and North-Western Provinces, and the greater portion of the peninsula. It has risen slightly elsewhere. A large depression exists in the south-east of Bengal, but the rainfall is scanty there and in the neighbourhood. Easterly winds prevail in the Gangetic plains and the Punjab. Moderately heavy rain has fallen on the Kumaon Hills, in the South-East Punjab, and at Simla. Slight showers are reported from Rajputana, Khandesh, and Gujerat, and fairly general rain on the western coast and the Deccan, but none on the east coast. The temperature has fallen rapidly in the small peninsula. Rain to-day:—Mercara, 4 inches; Mangalore, Kurnool, and Karwar, 2½ inches; Delhi, and Goa, 2 inches; Simla, Ranikhet, and False Point, 1½ inches; Chakrata, Mussoorie, Darjeeling, Nagpore, Rutnagherry, Secunderabad, and Cochin, 1¼ inches; Raipore, Goonah, Ajmere, Roorkee, Agra, Benares, Sibsagar, Burdwan, Cuttack, Rajkot, Sholapore, Satara, Duddapah, and Salem, below 1 inch. Previously:—Nani Tal and Cawnpore, about 2 inches; Jhansi, Fyzabad, and Calicut, 1 inch.

HEAVY FLOODS IN RAJPUTANA,

BREACHES ON THE RAILWAY.

EXCESSIVE rainfall in the northern part of Ulwar and about Delhi has caused great floods on the river Sabi. This river crosses the Rajputana main line near Rewari, and telegrams received last evening at the B. B. and C. I. Office state that several breaches have been made in the main line and on the Rewari-Ferozepore branch. Rewari is the sixth station on the main line this side of Delhi. There were serious floods on the Sabi in 1874. There is some reason to fear that the present flood has done considerable damage.

THE FAMILY OF THOMAS CATLEY.

THE situation of the family of the engine-driver, Thomas Catley, who was sentenced to an enhanced punishment of six months' rigorous imprisonment, by the High Court, under circumstances detailed in this paper on Saturday and Monday last, has attracted attention, and aroused widespread sympathy. Subscriptions are being raised to provide for the needs of the family, thus a second time deprived of their bread-winner for the same offence, which the magistrate declared to involve "no moral blame"—a declaration not called in question by the High Court. MILITARY NEWS.

LIEUTENANT M. S. SHEWEN, of the Royal Marine Light Infantry, Officiating Wing Officer, 4th Regiment Hyderabad Contingent, is admitted to the Staff Corps, with effect from March, 1883.

MR. H. H. DEANE is appointed Lieutenant in the B. B. and C. I. Railway Volunteer Rifle Corps.

FURLOUGH to Europe for one year on medical certificate is granted to Lieutenant W. St. L. Chase, V. C., Staff Corps, D. A. Q. M. G., Quetta District.

THE *Pioneer* says that the increase in the Native Army foreshadowed in Lord Randolph Churchill's speech will chiefly take the form of augmenting existing regiments, by raising the strength of troops and companies. The cavalry troop will probably be brought up to 100 sabres and the company to 100 bayonets, six troops or eight companies, as now composing the regiment, which would then become a respectable tactical unit.

MURDER BY STRANGLING WITH A CORD.

AT the High Court yesterday, an appeal from a sentence of death passed by Mr. Arthur H. Unwin, acting Sessions Judge of Canara, the case of the Empress against Toku bin Venka, was heard before Mr. Justice Nanabhai Haridas and Sir William Wedderburn. Mr. Branson and Mr. Ganesham Nilkant appeared for the accused; and the Hon'ble Mr. Mandlik, C. S. I., for the Crown.

The accused, aged 25, a cultivator of Bobrawada, North Canara District, was charged with the murder of Masti bin Yesha by strangling him with a cord in the house of Davku, woman, on the night of the 21st May last. The case for the Crown was that Davku, wife of Ganesh, a man of the fisher caste, was on terms of undue intimacy with the deceased Masti as well as the prisoner Toku; that the two men had quarrelled, and that Toku had been discarded by Davku during the night in question, her husband being absent fishing. Toku entered Davku's house, found the deceased Masti sleeping there, and, in spite of her entreaties, effected his purpose of strangling the sleeping man. Meanwhile Davku in alarm had gone out and roused her father. On her returning with him to her house, followed by her mother, the prisoner was seen to emerge from the house and run away towards Ankola. Davku then entered the house, and found Masti lying lifeless with a cord round his neck. After trying in vain to resuscitate him, she brought his corpse to the door, and with her father's help carried it a short distance to the sea shore, and then went and passed the rest of the night at her father's house. The defence was that the murder was committed by some one else than Toku, who at the time he was said to have committed the murder was assiduously tending his brother, who was dangerously ill in the house of a relative at Ankola. The deceased's corpse, which was found by the police by the sea shore the next morning, was sent that day by the civil surgeon of Karwar to Ankola, and received by him the following day in an advanced state of decomposition. An examination of the neck left no doubt in the civil surgeon's mind that the cause of death was asphyxia, the result of strangulation. The prisoner was arrested on a statement made by the woman Davku. The deceased was said by the civil surgeon to have been a man of large and powerful make; but so was the prisoner, who, with much slighter corporal strength, might easily have the advantage over a sleeping man. The Sessions Judge came reluctantly to the conclusion that Davku, with the forte of being outcasted, had told the truth in giving her evidence, and had made no effort to extenuate or exaggerate. Whether the prisoner went to her house that night with the knowledge that Masti was with her or not, could not now be known. It could only be hoped, the Sessions Judge remarked, that his crime was the outcome of sudden and vengeful jealousy rather than of premeditation. The court differing from one of the assessors, found the prisoner guilty of murder, and sentenced him to be hanged, the sentence being subject to confirmation by the High Court.

Their lordships, after hearing the arguments of counsel, and taking into consideration all the circumstances of the case, were of opinion that the conviction should not be upheld. It rested upon Davku's statement, which was not supported by independent evidence. There was, relative evidence to convict Toku of murder. The conviction and sentence were therefore reversed, and the prisoner was ordered to be discharged.

SMALL CAUSES COURT.—AUGUST 13.

ACTION ON PROMISSORY NOTES.

[MEGHA PITHA AND OTHERS *vs.* SOKER BAPOOJEE.

THE first plaintiff appeared in person, and Mr. Rustomjee Patel for the defendant. This was an action by a firm of Marwaree money-lenders to recover from the defendants, as interpreter in the High Court, the sum of Rs. 614, being the amount of three promissory notes for Rs. 200 each, and Rs. 14 as interest, passed by him on the 23rd April last. Prior to the execution of these bonds, the defendant had some money transactions with the plaintiffs, but on the date in question the defendant renewed the bonds, promising to pay the amount by monthly instalments of Rs. 8. Mr. Patel admitted the debt, and offered to pay the amount by monthly instalments of Rs. 20, as the defendant was paying several instalments into court, and also other creditors. His honour passed a decree in terms of the offer.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.—In weakness of children its efficacy is unequalled. Thomas Hunt, Esq., M. R. C. S., late Medical Officer of Health, St. Giles and Bloomsbury, writes:—"In badly nourished infants, Dr. de Jongh's Cod Liver Oil is invaluable. The rapidity with which two or three tea-spoonfuls a day will fatten a young child is astonishing. The weight gained in three times the weight of the oil swallowed, or more. Children generally like the taste of Dr. de Jongh's Oil, and when it is given them, often cry for more." Sold only in capsuled Imperial half-pints, pints, and quarts, all by chemists, druggists, and store-keepers. Sole Consignees, Acser, Harford and Co., 240, High Holborn, London.

BOMBAY TOWN COUNCIL.

AT the weekly meeting of the Town Council held on Wednesday, there were present Sir Frank Souter (chairman), Colonel Merewether, Captain Morland, Mr. Geary, Dr. Cook, Dr. Peterson, Messrs. Nanabhoy B. Jeejeebhoy, R. M. Sayani, and R. N. Khote.

THE QUESTION OF DR. WEIR'S LEAVE.

With reference to the application of Dr. Weir, Health Officer, asking for an extension of leave for three months from the 4th September next, a memorandum from the Deputy Municipal Commissioner was submitted to the Town Council. Mr. Acworth pointed out in his memorandum that section 58 of the Municipal Acts, under which the Council has delegated to the Municipal Commissioner their power to grant leave, authorises the grant "of such leave as the Town Council shall deem proper to any officer appointed under the Municipal Acts." To a Government officer in Municipal service there was, therefore, no bar to the grant of any amount of leave which the Town Council might deem proper. But there did not appear to be any Municipal rules expressly authorising the grant to covenanted civilians and military officers in the service of the Municipality of the same privileges with regard to leave which they would enjoy if still in the service of Government. The usage of the Municipality, though there was no specific rule, was to grant to a military officer the leave he was entitled to as such, and that being the case, the question what leave he was entitled to was one for the Military Department of Government, and not for the Municipality. The Deputy Commissioner stated that he had already granted Dr. Weir the extension of leave he had applied for, subject to Government finding that he was entitled to it.

It was resolved on the motion of the chairman, seconded by Dr. Cook

referred to "swept" as recommended by the Port Officer.

Resolution.—The recommendations of the Harbour and Pilotage Committee should be acted upon.

The following were amongst the papers laid on the table :—

Letter from the Dock Superintendent, 28th July, reporting that a European fireman of the s. s. Selembria, named Hamilton Poole, was drowned while swimming in the dock on the afternoon of the 26th idem.

Letter from the Dock Superintendent, dated 28th July, reporting that on the 27th inst. the body of a Seedee was found in a state of decomposition in the bunker hatch of the s. s. Rydal Hall, berthed at the A. shed, and that the body was removed by the police to the Morgue, where an inquest was held by the Coroner, and the verdict returned by the jury was :—" That death was caused by the deceased having fallen accidentally into the hold of a ship."

HOSPITALS AND DISPENSARIES IN THE BOMBAY PRESIDENCY.

THE administration and progress report on the civil hospitals and dispensaries under the Government of Bombay for the year 1884 has been prepared by Surgeon D. A. Patterson, M.D., secretary to the Surgeon-General. The Government Resolution on the report says :—

The total number of civil hospitals and dispensaries under the supervision of the Surgeon-General with the Government of Bombay in the year under review was 208 as compared with 202 in the previous year. The increase was due to the opening of new dispensaries in the Kaladgi, Sholapur, Khandeish and Broach Collectorates, and in the Kolhapur and Sachin States. Of the total number forty-seven are shown to have been maintained from provincial funds, thirty-three from local and municipal funds, twenty-five at the cost of private individuals or associations, while the rest were supported from private subscriptions supplemented by grants from provincial or local funds. There is an apparent large increase in the number of institutions of the last class, which was shown as eleven only in the report for 1883, but the Surgeon-General states that many of the dispensaries which were classed in that report as institutions supported from local funds are now included in the class of "dispensaries supported by private subscriptions or guarantee, but receiving aid from Government or local funds."

The number of in-door and out-door patients treated in the several hospitals and dispensaries in the year under review is contrasted with that in the previous year in the following statement :—

	In-door Patients. 1883.	1884.	Out-door Patients. 1883.	1884.	Total. 1883.	1884.
Civil Hospitals	29,120	29,045	304,455	357,128	333,575	386,173
Dispensaries	6,833	7,357	1,031,539	1,127,640	1,038,374	1,131,597
Total	35,953	36,402	1,335,994	1,484,768	1,372,249	1,491,770

The increase in the number of in-door patients was slight, but that in the number of out-door patients was very large. The proportion of in-door to out-door patients treated in the civil hospitals was 1 to 11, there is in most dispensaries little accommodation for in-door patients, and the proportion of these patients treated in dispensaries is accordingly small. The average daily attendance of out-door patients was 3,053·6 at the hospitals and 11,750·2 at the dispensaries as compared with 2,746·8 and 11,041·2 respectively in 1883.

The following table shows the principal diseases treated and the proportion which the number of patients suffering from each of those diseases bore to the total number under treatment in 1883 and 1884 respectively :—Malarious fevers, 15·3—15·1 ; skin diseases, 12·8—14·6 ; diseases of the eye, 9·4—8·9 ; intestinal parasites, 7·6—7·7 ; respiratory affections, 5·6—5·5 ; abscess and boils, 3·7—3·7 ; rheumatic affections, 3·1—3·0 ; ulcers, 2·1—3·0 ; diseases of the ear, 2·8—2·6 ; venereal diseases, 2·4—2·2 ; diarrhœa, 2·6—2·1 ; dysentery, 1·4—1·4 ; cholera, ·45—·13. The number of cases of cholera treated in the hospitals and dispensaries in the whole Presidency fell from 6,215 in 1883 to 1,983 in 1884, while that of small-pox rose from 845 in 1883 to 1,099 in 1884, but as remarked in previous years, these figures do not indicate the real extent of these diseases. The disease for which by far the largest number of patients (271,763) were treated was as usual malarious fever. The proportion of cases of that disease to the total number treated was highest in hospitals at foreign stations (23·3) and lowest in the Deccan (13·1). Cutaneous diseases are reported to have been very prevalent in Gujarat and the Deccan, and worms in the latter Division and the Konkan. The number of persons treated for venereal diseases of all kinds rose from 33,071 in 1883 to 35,181 in 1884. The numbers of cases of disease of the eye and the ear, rheumatic and respiratory affections, dysentery and diarrhœa also show an increase over those of the previous year. There was one case of 177 in the number (4,066) of persons admitted into the Gokuldas Tejpal Hospital on account of injuries, most of which, as in previous years, resulted from accidents at the Prince's Dock and in the harbour. Bye-laws have been framed to bring the stevedores employed at the Prince's Dock more under the control of the dock authorities, from which measure, it is hoped, a decrease in the number of accidents will result.

The total number of surgical operations performed in the year under review was 4,182 as compared with 4,393 in 1883. The Surgeon-General states that 1,517 were performed in the hospitals in the City of Bombay, in the hospitals in the Mofussil, and 1,239 in the dispensaries. The number of cases in which death succeeded the operations was 172. There was an increase of 1,124 in the number of minor operations (76,546.)

Of the total number treated in the various hospitals and dispensaries 7,464 were Europeans, 3,911 Eurasians, 1,008,126 Hindus, 381,995 Mahomedans, 35,667 Parsees, 42,666 Native Christians, while the caste or creed of 5,731 could not be ascertained. The proportion of men, women and children was respectively 46·8, 17·3 and 35·9 per cent.

The total income of the year, excluding the balance in hand on 1st January, 1884, amounted to Rs. 10,31,872 as compared with Rs. 9,98,408 in 1883. Rs. 7,99,821 were contributed by Government, while the contributions from municipal and local funds amounted to Rs. 1,89,518. In Government Resolution No. 4340, dated 20th November, 1883, the Collectors were requested to invite the attention of the public to the benefits which result from the maintenance of dispensaries with a view to obtain from them a more liberal share of their support, the results hitherto by far being unsatisfactory. The receipts from private subscriptions (Rs. 7,584) were less by Rs. 872 than in 1883. The other receipts were derived mainly from the sale of grass and unserviceable articles.

The total expenditure amounted to Rs. 10,28,244 or Rs. 1,04,950 more than in the previous year. The increase occurred in nearly all the items, but principally in charges for European medicines and diet. The proportion of the cost of hospitals and dispensaries combined, which was paid by Government, was 77·7 per cent. and of dispensaries alone 37·9 per cent. as compared with 81·3 per cent. and 32·3 per cent. respectively in 1883. The decrease in the latter proportion is satisfactory, but in view of the fact that the benefit of the institutions, great as it is, is mainly local it can scarcely be said that a fair share of the total cost is yet met from local sources. The average cost of each patient was Rs. 0-12-3 or 5 pies more than in the previous year. Sanction has lately been accorded to certain alterations in the obstetric ward of the Sir Jamshedjee Jijibhai Hospital and to the erection in the compound of this hospital of a separate building for use as a dispensary for adult females.

The supervision exercised by Dr. Beatty, who was in charge of the office of Surgeon General with the Government of Bombay for the whole of the year under review, but has now retired from the service, continued to be careful and efficient. The thanks of Government should be conveyed to Deputy Surgeon-General Bruce for his inspection of the civil medical institutions at Aden and to Deputy Surgeon-General Pinkerton for his satisfactory control over hospitals and dispensaries in Sind. His Excellency in Council notices with pleasure the commendations bestowed by Dr. Gray on the officers named in his memorandum, which is appended to the Surgeon-General's report, and should be circulated as widely as possible among medical officers in the Presidency.

THE PADROA[DO]

The following [letter] from the Pope was read at the [Ma]ss in the Roman Catholic Cathedral, Madras, on Sunday, and was signed by many of the congregation :—

MAY IT PLEASE YOUR HOLINESS.—We, the undersigned Catholics of the Vicariate Apostolics of Madras, prostrate in spirit at your sacred feet, humbly crave your Apostolic Benediction and beg to offer to your Holiness this our humble Petition. In reference to the present, and to us, all-important question, the continuance or extinction of the Portuguese claim to the right of Patronage over the Catholic Church in British India.

That this right, if ever possessed in strict accordance with the Canon Laws of the Church, has long since ceased to exist there is, Most Holy Father, but little reason to doubt. It is well known to you, Most Holy Father, as it was to your Venerable Predecessors, that, for centuries, Portugal was never able to fulfil the obligations of a Patron, or supply the spiritual wants of the Christians scattered throughout British India ;—that their pretended claims have been, and are still, a great drawback to the progress of religion in this portion of Christ's vineyard and that the vast majority of your Holiness' devoted subjects most ardently desire to see, once and for all the Catholic Church in India entirely freed in spiritual matters, as it is in temporalities, from any interference whatsoever on the part of the Crown of Portugal.

When we look to the present condition of the Church in India and compare it with what it was fifty years ago, when Vicars Apostolic were sent to save the remnant of the faithful from heresy, or from an entire loss of faith, we have reason to give thanks to God for his merciful interposition in sending us truly good and zealous Pastors, by whose zeal and energy the faith of thousands was preserved and the Catholic religion raised to its present honorable and elevated position. We are fully convinced that had the Catholic Church in India been left under the sole care of the Archbishop of Goa and the Goanese clergy, for the last half century, little but the name of Catholicity would be found to-day in India. The vast strides that the Church has made during these fifty years, the number of Priests and Religions of both sexes, that have been brought to this country, the churches and schools that have been built and the many charitable Institutions that have been erected, amply testify to the good that has been effected during this period in the different Vicariates. For twenty-five years the Goanese clergy of the old school, whose exaggerated ideas of the rights of a Patron are no longer upheld, were in open rebellion and recognized the Portuguese Government, not the Vicar of Christ, as the head of the Catholic Church. Their subsequent reconciliation to the Church, though it saved many from Schism and its evil effects, yet, did not heal the wounds that had been inflicted, or promote the general good of the Church in India to that extent that might be expected. The want of uniformity in discipline, as well as in the rules of the Church, in one and the same Vicariate, has always had an injurious effect and served as a barrier to the progress of our holy religion.

We, Most Holy Father, desire most earnestly to see the present state of things altered, the double jurisdiction withdrawn, and to have all Catholics united under the Bishops appointed by the Holy See, and no longer to continue this imperium in imperio—, which has been disastrous to religion in the past and will be so, as long as it is allowed to continue.

We would wish to see the Clergy, no matter to what nationality they belong, subject to the same superior, and all Catholics subject to the rules and regulations, which cannot be effected until all spiritual authority is vested in one and the same spiritual ruler in each Vicariate.

There is a wild field for all in this country, were representatives of so many nations are to be found, and we feel satisfied that ample work could, and would be found by the Vicars Apostolic for every Priest, no matter what his nationality, provided he were willing to work and labour for the salvation of souls.

Vouchsafe, Most Holy Father, benignly to grant the prayer of our Petition and bestow upon us, your devoted children, your Apostolical Benediction.

MUSIC.

AN IMPORTANT ELEMENT IN THE PROGRESS OF CIVILIZATION.

THOUGH MUSIC has hitherto been comparatively neglected there is now sufficient evidence that the natural genius of the people is being rewarded by a careful cultivation of it. The most recent improvements in the manufacture of Pianos capable of producing the grandest and most sympathetic effects, coupled with the successful cultivation of the human voice and instruction in Vocal Music in all elementary schools, have tended greatly to remove the erroneous idea that Music is not to be reckoned among the necessary subjects of the education of children and that it is an unimportant element in civilization. Parents wishing to claim a place for their little ones in the race of progress should by all means endow their children with this most essential accomplishment demanded by society. Music is the mainspring of the heart; it regulates the better parts of our nature ; it is reckoned as the source from which the soul rises above the earth. The magic power of Music is intense ; it exercises a soft refining influence ; it inspires the soul with comfort and in household life it contributes greatly to the increase of domestic happiness and contentment. It helps to wean young men from the more vicious and debasing pleasures and indulgences and it associates their innocent amusement with their duties.

The man that hath no music in himself
Is fit for treasons, stratagems and spoils.—
Shakspeare.

Vocal Music has without doubt made rapid strides. Instrumental Music till very lately had serious impediments to its general introduction, the reason being the prohibitive prices that were charged for Pianos of very inferior manufacture. Competition has been so keen of late years that not only have the prices been brought down to a minimum ; but by the introduction of the Hire Purchase system, now so universally popular, a would-be purchaser by paying the ordinary hire of a first-class instrument, becomes its owner in the period of one, two or three years, thus placing within the reach of all an instrument of unquestionable manufacture. This arrangement is specially suited to families of ordinary means and gives them an opportunity of educating their children for a leading place in the society of the future. "What instrument shall we buy?" is a question often asked by many anxious parents and as frequently answered—" A cheap instrument will do as a beginning." This is a serious mistake to start with. Cheap instruments cannot be expected to possess anything like purity of tone so essential to a beginner and as the ear is most sensible to refined sounds it is ruinous to spoil the future of a child by giving it a harsh and rude metallic sounding Piano. Far safer is it to secure a good instrument at a moderate price than a bad one at *any* price. In choosing a Piano the following essentials should be looked for :—Equality of power and volume of tone ; capacity for variety of effect and expression ; flexibility of touch; smoothness of action; durability. Two of the best known manufacturers in the world are *John Brinsmead and Sons*, of London, and *Schiedmayer, and Soehne*, of Stuttgart. The improvement of the Pianoforte has within recent times proceeded *a pas de géant*, though the march of progress may prove ever so swift these firms may always be noticed as the advance guards. The Brinsmead have the following improvements protected by numerous patents throughout the world :—Touch is elastic : all gradations from the most subdued whisper to the greatest fortissimo passage can be accomplished with delightful effect ; the entire frame is continuous throughout ; they have no dangerously numerous gluings ; the tuning is now rendered easier and more lasting than was hitherto possible ; the sustaining pedal enables the performer to influence the notes on the organ principal. These results have been obtained, not by a lucky speculation but by long and thoughtful experiments and their successes are represented by diplomas of honour awarded by the highest musical authorities in the world. The *Schiedmayer and Soehne's* Pianos have gained a wide reputation. This firm has been steadily improving itself during the century of its existence by inventions and improvements. The present musical and mechanical qualities have been severely tested at the various Continental Exhibitions but the instruments have been and are still able to maintain the reputation of their manufacture, the position gained by long and arduous study and through the awards given by the jury of experts notwithstanding the immense number exhibited by other large manufacturers. These Pianofortes are not introduced as a startling novelty, to have only a transient existence, but they are intended to do credit to the firm and to obtain popularity amongst all classes. The leading musicians in the world and amongst them the *masters* of the Pianoforte the Abbe Franz Listz, Dr. Hanz Bulow, Rubenstein, Thalberg, Brahm, Marie Krebser and others have acknowledged publicly the important advantages of the *Schiedmayer and Soehne's* Instruments. Semigrand Pianos of this firm's manufacture are used at the Promenade Concerts at Convent Garden,—the greatest Theatre in England—which are filled every night by thousands ; the greatest pianists who play there have always shown a decided preference for these instruments above all others. Eduard Emil Bach Hof—Pianist, writes :—"I has the pleasure of playing at these concerts on one of Schiedmayer and Soehne's Semi-grand Pianos with an accompaniment of a full orchestra consisting of 100 members. The sweet, rich and powerful sound of the instrument had the greatest effect. The powerful sound of these instruments is like a powerful orchestra, and similarly the pianissimo capabilities of these excellent instruments produce a special charm." Visited in the last three years MARCKS & Co., Limited, of Bombay the Agents of Messrs. Schiedmayer and Soehne, have been able to dispose of over 500 instruments—which fact alone proves a great deal to the popularity gained.

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavoured beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article of the *Civil Service Gazette*.

CHOLERA PILLS
CERTIFICATES.

LAHORE, BLOSSOMVILLE, 22nd April 1882.

T. COTTER, ESQ.

DEAR SIR,—I have much pleasure in testifying to the efficacy of your valuable Cholera Pills. Last year I cured my wife, child and a servant. I did not call in a Doctor, but gave your pills with confidence and without hesitation ; I had so much faith in them.

Your pills have done a great deal of good locally, and I would like to see them receive a universal circulation for the benefit of the thousands who perish for want of a specific.

I remain, Dear Sir, Yours faithfully,
ALEX. LEMMON,
Govt. Tele. Dept.
LAHORE, 22nd April 1882.

To MR. COTTER.

DEAR SIR,—We have tried your famous Pills and Mixture for the "Cholera" disease ; it is the only medicine as far as to my knowledge the best remedy for this disease in the world. Besides ourselves and family we gave to several others, and the result has proved successful ; and we hope that this remedy will be known over the whole world, as we strongly recommend it.

Yours truly,
L. MUHEE LAL & SONS.
